Jared Siegel | Curriculum Vitae

University of Chicago, Department of Astronomy & Astrophysics — Chicago, IL 60637

siegeljc@uchicago.edu jaredcsiegel.github.io 0000-0002-9337-0902

Education

The University of Chicago | Chicago, IL — Expected June 2022

Bachelor of Arts in Physics
Bachelor of Science in Astrophysics

Highlands Ranch High School | Highlands Ranch, CO — 2014 to 2018

Diploma
GPA: 4.40/4.00 Weighted | GPA: 4.00/4.00 Unweighted | 840 Community Service Hours

Research Experience

Investigating Detection Probabilities of X-ray Binaries in the Mass Gap — Jun. 2020 to Present
Northwestern University NSF CIERA REU | Supervised by Vicky Kalogera and Christopher Berry

- Executed COSMIC population studies of binary formation and evolution
- Wrote and operated post-processing scripts for inferring system properties and detection probabilities

Exploring Tidal-Dissipation and Critical-Angles in Resonance Chains — Nov. 2019 to Present
University of Chicago Dept. of A. & A. | Supervised by Daniel Fabrycky

- Operated n-body simulations in the C programming language on a cluster computer
- Wrote and executed Python codes for processing and plotting simulation data

Analyzing Supernova Remnant X-ray Emission — Jan. 2019 to Present
University of Chicago Dept. of A. & A. | Supervised by Vikram Dwarkadas and Kari Frank

- Produced new methods for chemical abundance calculations within supernova remnants
- Wrote and executed Python code to analyze XMM Newton X-ray observations of supernova remnants
- Synthesized results and drafted papers for publication

Publications

Refereed Publications

2. "Analysis of XMM-Newton Observations of Supernova Remnant W49B and Clues to the Progenitor"

   Siegel J, Dwarkadas VV, Frank K, Burrows DN. 2020, submitted to ApJ.

1. "Smoothed particle inference analysis and abundance calculations of DEM L71, and comparison to SN explosion models"

   Siegel J, Dwarkadas VV, Frank K, Burrows DN, Panfichi A. Astron. Nachr. 2020; 1–7.
   https://ui.adsabs.harvard.edu/abs/2020arXiv200110129S/abstract

Non-Refereed Articles

1. "Elemental Abundances in Supernova Remnant W49B as Clues to Its Progenitor"

   Siegel J, Dwarkadas VV, Frank K, Burrows DN. 2020, RNAAS
   https://iopscience.iop.org/article/10.3847/2515-5172/abac07

Abstracts

2. "SPI Analysis and Abundance Calculations of W49B"

   Siegel, J., Dwarkadas, V., Frank, K., & Burrows, D. 2020,in American Astronomical Society Meeting Abstracts,Vol. 236, American Astronomical Society Meeting Abstracts 236, 134.032
   https://ui.adsabs.harvard.edu/abs/2020AAS...23613403S/abstract

1. "SPI Analysis and Abundance Calculations of DEM L71 and W49B, and Comparison to SN explosion Models"

   Frank, K. A., **Siegel, J.**, Dwarkadas, V., Burrows, D. N., & Panfichi, A. 2020, in American Astronomical Society Meeting Abstracts, American Astronomical Society Meeting Abstracts, 377.02
   https://ui.adsabs.harvard.edu/abs/2020AAS...23537702F

Presentations

4. "Smoothed Particle Inference Studies of Supernova Remnant DEM L71"

   University of Chicago Research Symposium Proceedings | Oral Presentation | June 2020
   https://openjournals.lib.uchicago.edu/index.php/ugradresearchsymposium/article/view/53/26

3. "Smoothed Particle Inference Studies of Supernova Remnant Abundances"

   Midstates Consortium for Math and Science | Poster Presentation | November 2019
   UCISTEM Undergraduate Research Symposium | Poster Presentation | October 2019

2. Keynote Panelist

   UCISTEM Undergraduate Research Symposium | Keynote Panel and Workshop | October 2019

1. "Smoothed Particle Inference Studies of Supernova Remnant Abundances"

   UCISTEM Undergraduate Research Symposium | Poster Presentation | October 2019

Awards and Grants

Chambliss Astronomy Student Award | 236th Meeting of the American Astronomical Society	June 2020
Micro-Metcalf Grant | The University of Chicago	Spring 2020
Summer Action Grant | The University of Chicago	June 2019
University Scholar Award | The University of Chicago	2018 to Present

Skills

- Advanced knowledge of Python programming
- Moderate knowledge of C and HTML programming
- Extensive experience with cluster computing
- Proficient in Linux, Bash, and Slurm commands

Additional Experience

Board Member | Society of Physics Students — March 2020 to Present

- Planned and executed remote lecture series fundraiser for University of Chicago Emergency Fund
- Contributed to organization wide budgeting and event planning

Student Coordinator | Taking the Next Step Conference — Sept. 2019 to Jan. 2020

- Led alumni outreach for the Research Round-tables and Panel
- Wrote panel questions and led panel event

Writer | The University of Chicago Chapter of Triple Helix — April 2019 to Present

- Unraveling Supernova Remnant DEM L71
- Interstellar Visitors
- The Birth of Extra-Galactic Astronomy: How Seventy-Four Light Bulbs Forever Changed Our View of the Universe

Student | Tutorials on Mechanical Design for Scientific Apparatus — Summer 2019

- Completed a training sequence with the Physics Department covering CAD design, 3-D printing, and machining

Student | Experimental Particle Physics Reading Seminar — Winter 2019

- Engaged in a weekly Reading Seminar covering ongoing experiments in particle physics and the detection of dark matter
- Lead a session covering the role of gravitational lensing in the study of dark matter
